GENTLEMEN:-I have a Type-Setting Machine which I have fully tested and find that it possesses the following qualities. Not being a practical printer myself, I wish your opinion of it: 1st, It can be built for less than \$100. 2d, It is very simple. 3d, It is as durable as an ordinary card press. 4th, It is not liable to derangement, 5th, It will set one font of type as well as another; the same machine setting any font, as required. 6th, It will set Capital and Lower Case, both Roman and Italic, and Small Caps, as desired, without additional keys and without change of fonts, or the operaand without change of fents, or the opera for changing his seat. 7th, It will quad lead or double lead at pleasure. 8th, It wil set any length of line required. 9th, It wil space as readily as set type. 10th, it will set correctly 3,000 ems per hour, by actual experiment. Illt, it will set a galley full or column without requiring the stick to be

emptied.

If this machine will fill these eleven claims, do you consider it valuable? Please answer below and oblige.

MESSES, H & F. BLANDY:—The Machinery purchased from you in February, gives entire satisfaction. The Shingle Machine will cut from 10,000 to 12 000 per day. The work is well and accurately done. The Saw Mill is cutting lumber finely. The largest days work I have done with it was 17,375 feet. I have been in the lumber business for 25 years, and own Engines manufactured by other firms. This BLANDY ENGINF, of twenty-five horse-power, will do about double the work I have ever had one to do of same estimated powe. early in the morning that the crowd in attendance upon the grounds would exceed the expectations of the most ardent friends of the Society; and the special trains over the different roads during the morning fully sustained this belief as they emptied their thousands in front of the grounds, and by societation of the grounds, and by societation of the grounds, and by societation from the grounds of the ground trod by those who were desirous of seeing what was to be seen. The Grand Stand presented a scene of animation but seldom witnessed-the first floor containing a moving throng, while the second and third stories were literally filled with human

beings. The general exhibition had considerably increased over that of Tuesday, every department showing an improvement, and a walk through the different halls well repaid the visitor. We should like to make particular mention of many things, in addition to those noticed by us yesterday morning, but want of space prevents us just now, although we intend doing justice to all, if possible. We shall only endeavor this morning to speak of the

LIVE STOCK. The exhibition in this department was full and better than it has ever been. The entries are numerous and full of interest.

She did the work handsomely, not only passing work handsomely, not only passing all, but pushing the impetuous lock on the home stretch. Jock won the race, leaping at a deer bound every hurdle, in 2.58.

"Honor to Whom Honor is Due." The success of the present State Fair has already gone beyond the anticipation of its most sanguine friends, and ere it shall have passed away we desire to give at least partial credit to some of the gentlemen who have contributed so largely to this success. Without wishing to detract from the valuable aid given by many members of the Executive Committee, of whom we intend speaking individually hereafter, we would speak specially just now of the immense service that has been rendered by the Raleigh & Gaston and the Raleigh & Augusta Air-Line Railroads, through their efficient officials, Dr. Wm. J. Hawkins and Capt. A. B. Andrews, without whose aid the Fair could not have arrived at the great success it has now attained. The writer of this as a member of the Committee, knows full well the valuable aid rendered by these gentlemen and by the roads they represent; how, at a time when the Committee knew not how to devise ways and means for the procedution of the work, they volunteered the material support of their roads by giving to the Society thousands of dollars in the way of freight, putting upon the ground more than a million of feet of lumber, and other materials that enabled the work to go forward; labored zealously, by actual work and wise counsel, in the furtherance of the general objects of the Committee, both in and out of its meetings; placed a track into the grounds at a heavy expense, and gave the inoral assistance of the corporations they represent with a view of promoting the agricultural interests of the State and the success of the State Fairwhich they had so much at heart.

Within the last few days we have noticed with pleasure, and speak of it without reflecting upon the laborious work done by others, the personal efforts that have been made by Messrs. Hawkins and Andrews to place upon the grounds the immense number of articles that have been sent for exhibition over their own and other roads, and they seem not to tire in the good work in which

they have been engaged. All other roads contiguous to us have given much aid to the State Fair, for which they have the thanks of every friend of the Society, but the citizens of Raleigh and the people of North Carolina friendly to the undertaking, which is now succeeding so handsomely, should and will re-member these roads, which have thus contributed so largely through

their officers to this success.

A late number of the New York South, which paper has thoroughly written up North Carolina. thus speaks of the Raleigh & Gaston road: This road runs from Raleigh to Roanoke River, and connects there with raffroads to Petersburg, and Norfolk, Va. The country through which this road passes is very fertile; it runs across the tobacco region of the State. Planting is the chief interest in the Planting is the chief interest in the section; the planters are energetic, enterprising, and wealthy. They desire to see their country built up, and are firm friends to immligration. Already there are many Canadians and English people living on this road who have, since their residence here, since the war, become much attached to their dwelling places. This famed region is very healthy. Dr. Hawkins, the President of this road, is a public spirited man always studying the inspirited man always studying the in-terest of his section and the State at large. He has been one of the few working men connected with the State Agricultural Society, and de-serves the thanks of the whole State for serves the thanks of the whole State for the great good he has done in advancing their interests. Captain Andrew, the superintendent of the road, is strictly a railroad man, always full of business. Although comparatively a young man, he has had an experience which places him among the best railroad managers in this country. This road connects at Releigh with the N. C. Railroad and the Raleigh, Columbia and Augusta Air Line."

RIP VAN WINKLE AT TUCKER HALL, To-NIGHT.—The bare announcement that Rose and Harry Watkins appear this evening in the above grand drama is sufficient of itself to fill the Hall, were it double its present size. When Washington Irving wrote his celebrated legend, he little dreamed that it would be known beyond the student's library, but the dramatist in search of novelty for the stage soon put the novelist's whimsical idea into dramatic form, and the actor's art, that art which embraces all arts, soon gave to Rip Van Winkle a new vitality, and made the sleepy hero a household word whenever the English language is spoken. The original impersona-tion of Rip was J. H. Hacket, who puduced it at the Park Theatre, New York, about the year 1825, but his success not being a marked one, it remained for the late Charles Burke, a man of extraordinary histrionic genius, to demonstrate that the eccentric Rip Van Winkle could be elevated into a prominence second to no other/character in the Drama. Since Burke's decease, Mr. Joseph Jefferson, (a half brother,) has achieved both fame and fortune by confining himself solely to the performance of this one character, yet adhering closely to Mr. Burke's style, photographing, as it were, the admirable impersonation of his distinguished predecessor. The character has become a favorite one with comedians, but none have attempted it

more successfully than Harry Wat-kins, of whom a cottemporary writes as follows: "Our citizens last evening had an opportunity of seeing Mr. Watkins in a character new to him, Rip Van Winkle. No doubt many of those present who had seen Mr. Jefferson in the part, visited the Opera House with their minds prejudiced by first impressions, but having seen Harry Watkins in almost every conceivable character, we had no fear of the result, and the sequel proved our confidence to have been well placed. We believed that the manswho could present two such widely different characters as Fergus McCarthy and Jocko with such consummate skill, could easily grasp Rip, a character not at all comparable to the McCarty. Mr. Watkins gained a grand success,

for it was won from a doubting au-dience." Secure your seats early, as the house will be crowded to its utmost.

Correspondence Between Emperor William and the Pope.

William and the Pope.

Berlin, Oct. 15.—The correspondence between the Pope and Emperor William is officially published.

The Pope writes, August 7th, that the measures of his Majesty's government aim at the destruction of Catholicism. He is unable to discover the reason for such severity, being informed and believing that the Emperor is averse to the continuance of this harsh policy. He points out that measure as injurious to Christian religion, and will only tend to undermine the throne. He speaks frankly, as truthfulness to all is his duty and all baptized, even non-catholics, belong in a certain sense to him. He is convinced that the Emperor will adopt the necessary measperor will adopt the necessary measures, and concludes by praying God to be merciful to the Emperor and

himself.

The German Emperor replies, September 3rd, rejoicing at the opportunity to correct the error relating to German affairs. If the Pope, was truthfully informed, he would be aware that the Government cannot act against approval of the Bovereign. The Emperor deeply regrets that a portion of his Catholics subject-priests have organized a party that a portion of his Catholics subject-priests have organized a party which is engaged in intrigue against the State, disturbing religious peace, to the extent of open revolt against the existing law. He points to the indication of similar movements in other parts of Europe and in America, and declares he will maintain order and law so long as he is enabled to and deciares he will maintain order andl law so long as he is enabled to do so even against the servants of a church, which he supposed acknowl-edged obedience to authority as a commandment of God. This doctrine commandment of God. This doctrine of obedience, however, he regrets many priests in Prussia disown. He expresses the hope that now the Pope has been informed of the truth, he will use his authority to terminate the agitation which he declares before God, has no connection with religion or truth. He makes objection to the Pope's remarks about non-Catholics, and concluding, says: "Difference of belief however, should not prevent our living in peace." not prevent our living in peace."

An Important Insurance Case.

RICHMOND, VA., Oct. 15.—In the Circuit Court of the United States. the case of Hancock vs. New York Life Insurance Company, was decidict rendered for thirteen hundred and seventy-one dollars. This is a case of general interest to the South the duelton of habinty of Northern insurance Companies for amount of premiums paid before the war on policies; which lapsed during the war, if the Company refused application for renewal after the close of the war. The verdict was for premiums paid and interest thereon. The Company's agent here declined to receive premiums from plaintiff because he was unable to communicate with the home office.

Fair Week. Our readers have manifested such a deep concern in the State Fair, that we propose to give full daily reports of the exhibition and its incidents in the RALEIGH NEWS. To do so, we will be compelled to encroach upon our editorial columns, and also to abridge our general news and State items. After the Fair is over, we will resume our usual variety.

THE children of Memphis who have been orplianed by the plague, send up a piteous appeal for food and clothing.

THE University of South Carolina has become negroized. The matriculation of colored students is driving out the Professors. This is a specimen of Radical ascendancy. What next?

THE most sensible speech, if not the shortest, the President has yet made, was that in reply to the reception address of Rev. Dr. TIFFANY, when the Evangelical Alliance delegates visited the White House. BEECHER's remarks on the same oceasion were complimentary to the President, but an Indirect reflection on himself, as he is not distinguishing for holding his peace.

ONE GEORGE RYE, of Edinburg, Virginia, has written a letter to Judge MORTON, Chairman of the Republican Executive Committee, which is personally abusive of Gen. KEMPER, because the latter declined an introduction to Rygrecently, at Staunton.

Gen. KEMPER, no doubt, had good reasons for his conduct, and the obloquy which RYE attempts to cast upon the good name of the Conservative candidate is conclusive evidence of the writer's own unworthiness.

THE last issue of The South, published in New York, is devoted almost exclusively to "the varied interests of North Carolina." It contains engravings of our State Fair Grounds and of other public and private buildings, including Peace Institute, Tucker's Hall and the Yarboro House, of this city, and the Granite Cotton Factory at Haw River. A large space is given to the North Carolina Agricultural Society, its history and officers, and particularly the 13th annual Fair, progressing so successfull willie week all sous allen

On Tuesday last, elections were held in the six States of Indiana, Ohio, Nebraska, Oregon, Pennsylvania and New Jersey.

Up to this time, the returns received by telegraph are too meagre and indefinite to give any idea of the result. In Indiana, only Judges and prosecutors in some of the Judicial Districts were chosen. Ohio and Iowa have elected Governors and State Legislatures. The other States elect State and county officers. In Ohio; the contest has been animated, in view of the new organization known as the Independent party, which favors the farmers' movement and opposes the Railroad monopolies.

Sea-Gift.

We are indebted to the author, ED-WIN W. FULLER, Esq., for a copy of his novel, SEA-GIFT, which has just been issued from the press of E. J. HALE & Son, Murray street, New York.

This is Mr. FULLER's second venture on the sea of authorship-his first production being The Angel in the Cloud, a poem which won for him a very enviable reputation.

We have only had time to glance cursorily over the pages of SEA-GIFT, and are not therefore prepared to give a positive opinion of its merits. Our impression, hastily formed, is a favorable one. We believe the work will add extensively to the author's fame. We shall give our unbiased judgment when we have read it more carefully. We shall not praise it simply because it is a North Carolina production, or because it is written by a personal friend; but while we admit our prejudices are in its favor, it would be alike unjust to the author and unjust to the public to bestow undeserved Tollebo, Ohio, Oct. 15,-The Salarq

SEA-GIFT is a Southern novel-Southern in its characters, in its incidents, in its plot, and in its sentiments. The scenes are mostly laid in Northa Carolina Wilmington, Goldsboro, Raleigh and Chapel Hill come in for frequent mention. The hero takes the unromantic name of JOHN SMITH, and theheroine, whose rescue after a severe storm gives the title to the novel, that of CARLOTTA.

Some of the latter chapters of the story give some very interesting and touching war incidents, which will be recognized as life-like pictures. On this point, the author may expect scathing criticism at the hands of Northern penny-a-liners, but he should not be discouraged or annoved by strictures from such sources. Our space to-day will not permit us to extend this general notice.

At the Michigan horse fair, held at Grand Rapids recently, there were entries of 238 horses alone, and over 50,000 people were on the course in one day. The receipts were \$40.

BRIGNOLI IN ROME.-I have not told you that the old opera favorite of your city, Brignoli, is singing at the summer open-air theatre, the Roman Politeamo, which is a popular sum-mer resort. Brignoli i judged tather severely by the Roman critics, for the people are quite exacting and quick-eared. They say Brignoli has a fine voice, sonorous, bien timbree; but he has great need of study and exercise that he omits here and there difficult passages, which show his imperfections and inability. It sounds strangely to us to hear Brignoli handled so roughly. If it were a firstclass opera-house we might put it down to hypercriticism, but to have our pet tenor not up to mark in a a third or fourth-rate summer opera-house is too bad. These Italians are severe critics in opera music because they know what they are talking about and what they are listening to. An actor might as well miss wellknown passages from Hamlet and Macbeth on an American stage as a singer in Italy to cut out difficulties in an opera .- Rome letter.

As a missionary, President Grant is not a success. His latest achievement in compulsory salvation is the turning out of the Roman Catholic fathers from the Osage Indian reservations, and the substitution of Quaker instructors. The Osages are not pleased with the change, the fathers having lived among them since 1844. It certainly seems that the wishes of the Indians in regard to the choice of their spiritual advisers should be heeded.

The caution of the New Englander, in giving an answer to a ques tion, was illustrated to me the other day, when I asked an Eastern friend of mine, whose family were not noted for very very active habits, "Was not your father's death very sudden?" Slowly drawing one hand from his pocket, and pulling down his beard, he interrogated cautiously replied, Waal, rather sudden, for him.-New York Express.

OTHER MACHINES HAVE THEIR PECULIAR MERITS-THIS HAS NO DEFECT. The Washing of a Family of Ordinary size Easily Accomplished before Breakfast!

Have Never Known One That Failed to Give Satisfaction! No other Machine can be sold after the "FRANKLIN" has been Tried.

From One to Two Thousand Dollars a Year Guaranteed to Working Men ! Every County Sold in Which it has been Introduced. WE CHALLENGE THE WORLD TO COMPETE WITH IT!!!

The inventor of the "FRANKLIN STEAM WASHER" was owner of the right to man-The inventor of the "FRANKLIN STEAM WASHER was owner of the light to mannature the "Improved" woman's Friend in certain territory. While manufacturing these machines, and watching attentively their action and the manner in which they operated, and the results, he discovered certain prominent defects therein. He spent ten months in the study of the subject of finding remedies for these defects. He has at last succeeded—and as the result of his investigation and study, he offers to the public the "FRANKLI STEAM WASHER," which is by far the best Washing Machine ever patented. We claim as an evidence of its merit that "LETTERS PATENT", were granted over all others.

were granted over all others.

It will wash anything from a Lace Collar to a Bed Blanket. It will cleanse the clothing without tearing and more thoroughly than can possibly be done by hand labor or the use of the rabbing board. With one-fourth of the labor four times as much can be done in the same length of time as can be done by hand. We could publish columns of certificates of its worth from those who have used it, but for the present we prefer the WASHER to speak for livelf. We give a few below: Louisburg, September 27th, 1873. Messrs, BARROW & PLEASANTS, Messrs, BARROW & PLEASANTS,
GENTLEMEN:—Mrs. Davis has tried the "FRANKLIN STEAM WASHER" and instructs me to say, in reply to your enquiry, that she is well pleased with it, and believes it to be all that you claim for it as a labor saving Machine. It does its work-well and diminishes, by more than balf, the labor of washing. She cheerfully recommends it.

JOSEPH J. DAVIS.

Messes, BARROW & PLEASANTS, Louisburg, September 10th, 1873, GESTLEMEN:—Before purchasing your Steam Washer, I paid four dollars per month for our family washing; now without any additional help, I have the washing done at home and pay fifty cents a week to have the ironing done. In this way I save \$2 per month, and my lothes are much whiter, and I am satisfied, will last much longer than when washed by rubbing or the use of a board. It is all that you recommend it to be.

Very respectfully,

Mrs. C. M. Cooke.

Mesers, BARROW & PLEASANTS. Louisburg, September 11th, 1873. GENTLEMEN: I am using your Steam Washer, and it proves a success and I take easure in recommending it to the public, and testify to its being all that you reprent it to be. Very respectfully, Mrs. P. B. HAWKI'S. Messrs, BARROW & PLEASANTS, LOUISBURG, September 8th, 1873. can safely say is far the best I ever saw. I cannot do without it. Mrs. A. W. Wilson. FRANKLINTON, September 9th, 1873

Sizes—M.s. Gibbons has been using your "Frank!in Steam Washer" for two weeks and pronounces it a grand success.

Rev. H. H. Gibbons. Messrs, BARROW & PLEASANTS, Louisburg, August 4th, 1873. GENTLEMEN:—I take pleasure in recommending your "Steam Washer." I zeknow-ledge myself to have been incredulous with regard to yours, after having tested several others that had been as highly recommended to me; but the inconvenience to a large family, of not being able to get a good washer, regularly, induced me to give yours a trial. I amigratified to pronounce it a perfect success. I used it according to directions, and did two week's washing in two hours, nor did I give the first kus. Whiter or more nicely washed clothes, I have never had. It only needs a trial to convince.

Respectfully, Mrs. W. H. Furman.

Messrs, BARROW & PLEASANTS, LOUISBURG, July 12th, 1873. GENTLEMEN:—Through the kindness of your agent, Mr. J. J. Person, I have tried your "Steam Washer," and find it by far the best I ever used. It certainly saves a great deal of hard labor and does not damage the clothes. It is all that you recommend. Respectfully, Mrs. Dr. J. B CLIF.ON.

Messrs BARROW & PLEASANTS, Louisburg, June 30th, 1873. DEAR SIRS:—I take pleasure in testifying, that I have used your "Steam Washer," with perfect success, and find it by far the most speedy and effectual mode of cleansing all kinds of fabrics I have ever known.

OURSELVES AS OTHERS SEE US:

"We take pleasure in saying that the "Franklin Steam Washer" is all that its proprietors claim it—a complete success. We hazard nothing in saying that nothing has ever been put upon the market that meets with such universal favor. We are yet to hear of the first one that d es not give entire satisfaction—Louisburg Courier.
"It is meeting with universal and unprecedented favor among domestic circles."—Rocky Mount Mail.

"Messrs, Barrow and Pleasants constitute one of the strongest and most reliable firms in Louisburg, and from what we have heard of the "Frankin Steam Washer" and the high character of the parties controling it, we have no doubt but that it is all that they represent it to be."—Biblical Recorder.

"The patentees claim for the "Franklin Steam Washer" a superiority over all others, and from the description we have had of its workings, we believe its claims are well founded."—Christian Advocate.

"We have known Messrs Barrow and Pleasants for the "Barrow and Pleasants for the steam washer."

and from the description we have had of its workings, we believe its claims are well founded."—Christian Advocate.

"We have known Messrs, Barrow and Pleasants from "our youth up," and know they would not recommend anything unworthy of patronrge. They are leading merchants in Louisburg."—Asheville Citizen.

We have acquired by purchase of the Patentee, Mr. S. W. Bartholomew, the sole right to manufacture and to sell the right to manufacture the "Franklin Steam Washer" within the United States and Territories.

We now offer the "Franklin Steam Washer" to the American people with full confidence that it will do all that we claim for it, and in order to introduce it as rapidly as possible, we are offering great inducements to working men who want to make money we will sell State or County rights on very reasonable terms; for instance, we will sell state or County with ten thousand inhabitants for one hundred dollars. Within twelve months, if properly managed, the person can sell from three to five hundred Washers, at a profit of five dollars each, and his right will be worth more at the expiration of that time than it was at first, from the fact that it has been instroduced and will sell in almost every family.

To parties wishing to buy State or county rights, we will, send, on receipt of five dollars, just one-half of the retail price, the "Franklin Steam Washer" complete, with instructions how to use, &c.; and after satisfying themselves that it is what we recommend it to be, they can correspond with us in regard to territory wanted, our terms. Acu. We desire a good reliable General Agent in every State in the Union; and we invite correspondence with workingmen who would like to make money. None need apply who cannot furnish satisfactory evidence of their integrity and reliability. Any tinner can make the "Washer," or parties buying county rights, can obtain them through us at Cusr.

All persons are warned against manufacturing or selling the "Franklin Steam Washer" without authority from us. Any person infring

will be prosecuted.

AP Our Mr. PLEASANTS will have rooms at the Yarborough House during Fair week and will give any information desired.

TO ALL WHOM IT MAY CONCERN : meson out me

We are well acquainted with Messrs. Barrow & Pleasants; as merchants they are doing a leading Business in their town. They are men of strict integrity and in every way reliable and responsible. They do what they engage to do.

A queer discovery has been made respecting the Civil Rights statute in Arkansas. The expulsion of a person of color from a first-class railway car developed the fact that the statute; by the omission of the word "not," negatives itself, for it reads as follows:
"No person shall make any rules which shall affect all persons alike without regard to race or color." This would seem to render it incumbent upon railway and other corporations make distinctions on account of race and color.

Troubles it Memphis The Fever. MEMPHIS, Oct. 15.—There is trouble here in the municipal Govern-ment occasioned by the Mayor's ap-pointing Zent, Chairman of the Common Council, instead of Chairman Cycilo of the Board of Aldermen, to act as Mayor, pro tem, dur-ing his, the Mayor's illness. Cycilo caused a writ of ouster to be served on Zent this morning, and is now in possession of the office. The affair caused a general feeling of disgust. It is evident that thieves are flocking to the city; several attempted robberies of houses and persons having been already detected.

An interview with a member of the Odd Fellows board of relief shows that that order has lost twenty-six members; four widows and wives and eight children; thirty-eight deaths in all, from 92 patients. The order now have 44 sick, including Mayor Johnson and Rev, Jas. Carmichal. The thermometer at noon to-day stood 77° and there was no sign of frost this morning. Warm weather has a favorable effect on the sick, but lessens the chance of checking the scourge. But few new cases have been discovered to-day. A man named Blackmere was detected yes terdayin defrauding the citizens Relief Committee of rations, and was this morning fixed \$500 and sentenced to confinement in a dark cell for sixty

The Yellow Feyer in Memphis. MEMPHIS, Oct. 15.—Sisters Magdalen and Marie, of Luslette Academy, died yesterday afternoon. Rev. Dr. Carmichael, of Grace Episcopal Church, was attacked yesterday with yellow fever. The Howards reported three deaths; the Masonic Relief Association buried four, and St. Andrew's Society one, yesterday. The mortuary report of yesterday shows an increase of four in the total of deaths there in yellow fever and one from other cause; total deaths are fifty-one, of which forty-one are from yellow fever.

From reports from all sources the result reached shows an increase on death rate as expected, but large decrease in new cases. Most of those attacked yesterday having been waiting on the sick and laboring to the extent of physical exhuustion. It is safely concluded that the disease is abating slowly. Reports are very fa-vorable of cases in hands of different committees, and physicians say the fever is less malignant.

A row occurred last evening be tween some negroes and white people about the burning of yellow fever bedding in the vicinity of the sick. Mrs. Heilegere, a white lady was badly beaten by negroes, who were arrested.

Meeting of the Senate Committee. NEW YORK, Oct. 15.—Senator Norwood arrived in the city this morning from Washington, to attend the meeting of the Senate Committee on Transportation. On leaving New York, the Committee will pass over the route of the James River and Kanawha Canal, and will then examine the route of the proposed At lantic and Great Western Canal, through the States of Georgia Alabama and Tennessee. If the sanitary condition of the far South permits the Committee they will also visit Louislana and Inspect the various internal improvements and prospects there and go from thence to St. L. BRANSCHUOL

More Suspensions in New York-The . Stoks Trial

NEW YORK, Oct. 15 .- Gilliam Sons & Co., of 47 Exchange Place has suspended. They say the suspension was caused by continued drain on deposits, non payment of collections due the firm and depreciation of securities. They have therefore concluded to pay no more checks until further notice. Drafts drawn against remittances received to-day, and hereafter will be paid by the firm as trustees. W. S. CARMER, Carolina Baking Powders,

You should use the "Carolina Baking Powders" because there is no other that gives such satisfaction. It makes charming Bread, Delicious Rolls, Cakes, Biscuits, Waffles, Corn Bread, Griddle Irons, Pastry and Cakes of every variety. For making Buckwheat Cakes it has

no rival. Those that have tried it, say it is decidedly the VERY BEST. Feeling considerably flattered at the increasing demand where put in competition to so many kinds now on the market, that I shall in future manufacture it on a much greater scale.

It is the only Baking Powder manufactured in the South, and I guarantee it to give as much satisfaction as any other.
